

# Every Pregnancy is Unique Every Baby is Special Your Care Should Be Too

KNOW WHAT QUESTIONS TO ASK **YOUR** DOCTOR

Is this procedure or intervention minor or major?

What risks and anticipated benefits are involved with this intervention?

What are the intended effects versus possible side effects of this intervention?

What are reasonable alternatives to this intervention including risks and possible benefits?

Will medical students, residents, and other trainees under supervision be part of my health care team?

Is the person performing any procedure or intervention an attending physician or other care provider?

## Give Yourself the Gift of Peace of Mind

This guide has been designed to give patients a basic understanding of their rights and responsibilities. It was created by and for community members.
